QFP GAS FIREPLACE SERIES

QUADRA-FIRE[®]
NOTHING BURNS LIKE A QUAD

QFP SERIES

AUTHENTIC FIREPLACE DESIGN

Large realistic logs and a flaming coal bed look like you just stoked the fire, and the sloping firebox provides the appearance of a traditional open hearth.

LARGE BEAUTIFUL VIEW

The QFP44 offers one of the largest fire views available, with over 1,420 square inches of glass, making it a center of attraction in any size room. The QFP38 offers 1,104 square inches, among the largest in its class.

HIGH PERFORMANCE

The QFP series puts performance into gas fireplaces. A chambered heat exchanger generates high heat output and over 80percent efficiency. A variable-speed, high-capacity blower circulates the heat, and optional air ducts can transfer heat to additional rooms.

HEAT CONTROL

The two-stage burner provides a wide turn-down range, so you can choose anything from a soft glow to a roaring fire. The wireless thermostatic remote gives complete control at the touch of a button.

ACCENT LIGHTS

Cast a glow on the firebox walls for additional realism, or use the lights without a fire to add subtle ambiance to any setting. Available on the QFP38 only.

QFP38 with Tuscan Bar front

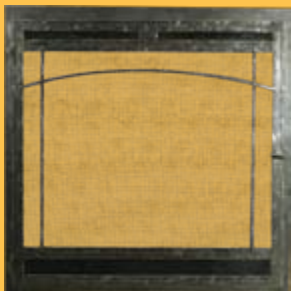

Hand-forged iron finish

DOORS AND ANDIRONS

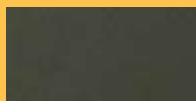

Expertly crafted fronts are available in a range of styles. Each frames the expansive glass and awesome view of the authentic fire, creating a memorable hearth presence for any great room. Hand-forged andirons accentuate the authentic look.

BIG BOLD BEAUTIFUL

Combining a large beautiful view, the convenience of gas, and high-efficiency heating performance, the QFP gas fireplace series offers the best of all worlds. Make a stunning statement in the grandest of rooms with the QFP44, with more than 1,420 square inches of ceramic glass showcasing an impressively authentic fire. For a more moderate room choose the QFP38, offering an equally eye-catching view in a slightly smaller package, with 1,104 square inches of glass. In both, the realistic looking ceramic logs are cast from actual firewood, creating the look and feel of a roaring wood fire. A front flaming coal bed gives the impression that you just stoked the fire. Add hand-forged andirons and your choice of expertly crafted doors for a fireplace you'll love to gather the family around.

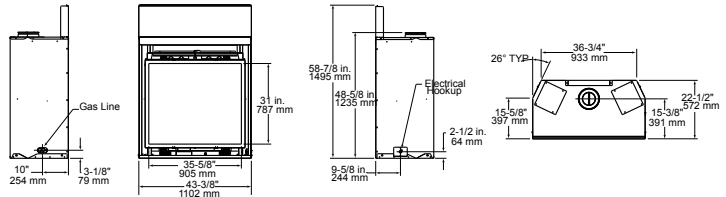

QFP GAS FIREPLACE SERIES

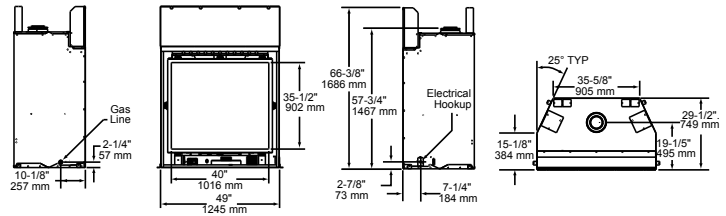

DIMENSIONS

QFP38

QFP44

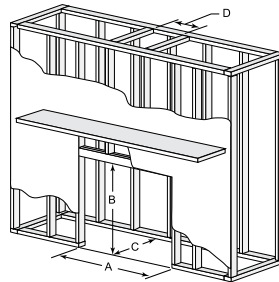

QFP44 with Iron Gate front

The QFP Fireplace series includes more standard features than any comparable product: accent lighting, andirons, wireless remote and fan are all standard. High performance also comes standard, with 80 percent efficiency and 78 percent turn-down for the right heat at the right time.
