AMERICA'S LUXURY FIREPLACE

FULLVIEW GAS FIREPLACE INSERTS

Your Exclusive Mendota Dealer:

# Luxury where you live

There's much to love about a Mendota luxury gas fireplace insert.

It begins the first time you turn it on and are instantly rewarded with the incredible, authentic FullView log fire, the memory of messy ashes and hours spent stacking and storing wood vanquished with the touch of a button.

Then there's the quiet confidence of knowing every Mendota fire burns with a century-old tradition of craftsmanship and gas technology, where details such as true full seam welding, heavy-gauge steel and careful hand assembly deliver on the promise of a lifetime of comfort.

But it's the moment you linger in the doorway, savoring how the antique copper finish of your Mendota front complements the other metal accents in the room, that the feeling of luxury truly hits home. The realization that your Mendota fireplace adds just the right tone, indulging you with ease, warmth and great satisfaction each and every day.

That's not just luxury—it's luxury where you live.

Patent-pending design

Frame your fire with exquisite stained glass insets and delight in watching the flames dance and flicker through a spectrum of colors. Rich, traditional hues of ruby and amber and modern jewel tones of swirled blue and purple glass help the Duchess front infuse a room with elegance and grace. On or off, it turns your high efficiency Mendota fireplace insert into an objet d'art.

Available in Black, Antique Copper and Swedish Nickel finishes with a choice of Sunrise, Autumn or Desert Vista stained glass color insets and Black or Antique facias

# Duchess

Inspired by the sweeping branches of the weeping willow. The bold look of precision-cut steel is softened by graceful curves, creating a balance of thick and thin, strength and comfort. Operable doors let you enjoy the flames of your Mendota insert to the fullest.

Available in Black, Swedish Nickel and Vintage Iron finishes

# Willow

Boulevard doors evoke an era when grand hotels and quaint shops lined a city's main thoroughfare. The classically sleek lines are equally at home in today's urban settings, offering a quiet sophistication and uninterrupted view of Mendota's exceptional FullView gas log fire.

Available in Vintage Iron finish with Black or Burled Cherry insets

# Boulevard

## Focus on the fire

With the exact look and feel of a woodburning fireplace, Mendota's award-winning log fire will quickly become the focal point of your room. The unique FullView design places the fire on the hearth, with no telltale louvers or raised platform that most gas fireplaces use to conceal the controls. In the end, there's just you and the beautiful fire—the way the experience was always meant to be. Best of all, every Mendota insert is an ANSI/AGA certified high efficiency wall furnace that adjusts from a roaring fire with lots of heat to the lazy flames of a romantic late night campfire with the touch of a button.

## Frame it in style

A big part of the Mendota fireplace experience is choosing just the right front, doors and accessories. The excitement of seeing how their shape and color come together to transform your room.

Whatever mood you wish to create—sophisticated, subtle, bold or rugged—Mendota has created a beautiful, precision-crafted front to frame your fire and enhance your unique style.

**Visit [www.mendotahearth.com](http://www.mendotahearth.com) to view videos of the fire in action and design your perfect fireplace online.**

All Mendota door sets extend over the entire fireplace, giving it the largest possible appearance. They also open to allow you to take full advantage of the beautiful, FullView fire.

With its handsome lines and elegant arched doors, the Bentley Collection redefines the shape of luxury in today's homes. Made warm and welcoming by the Mendota FullView fire, the Bentley's regal, stately presence instantly transforms your room.

Available in Black, Antique Copper, Gold, Gun Metal, Swedish Nickel and Vintage Iron finishes

## Bentley

The Prairie Collection captures the American style of architect Frank Lloyd Wright—a look exemplified by strong horizontal lines, open interiors, and a warm, informal, inviting style in harmony with its surroundings.

Available in Black finish with optional lattice overlays in Antique Copper, Gold, Gun Metal, Swedish Nickel and Vintage Iron finishes

## Prairie

Nothing re-creates the mood of traditional New England like Mendota's popular Andover Collection. Classically styled doors, antique red firebrick and artistically hand-molded logs create the illusion of a woodburning fireplace.

Available in Black finish with optional lattice overlays in Antique Copper, Gold, Gun Metal, Swedish Nickel and Vintage Iron finishes

## Andover

## Portrait

Framed photos atop the mantel bring attention to memorable people and places. Our Portrait front does the same for your unforgettable Mendota fire. The simple frame design is enhanced with a gentle curve and beveled edges to create an inviting, three-dimensional look.

Available in Black and Vintage Iron finishes

## Homestead

Harkening back to the days when fire was truly the focal point of the home, Homestead doors embody the simplicity and quality that are hallmarks of farmhouse style. The traditional steel finish and corner detailing lend a subtle touch that enhances and accents the beautiful flames.

Available in Black and Vintage Iron finishes

## Rustique

Begin with a black or antique facia, then add one of three vintage iron fronts to complete the Rustique's rugged, rough-hewn appearance. Options include border, arched bar or straight bar styles, and all feature a machine-distressed scalloped edge. Decidedly masculine, it has the look and feel of a favorite antique that's right at home in a den or family room.

Available in Vintage Iron finish with Black or Antique facias

## Basix

Designed for those who want minimal visual interruption of the beautiful Mendota fire.

Available in Black finish with Vintage Iron accent bar

## Complete Comfort Control, With Just a Simple Touch

This handsome, simple-to-operate remote control is included with your Mendota FullView gas fireplace insert. It allows you to easily:

- Turn the pilot on and off
- Adjust the flame height and heat output to your comfort
- Even turn off the rear burner on mild days

You can accurately control room temperature using the remote control's digital thermostat. Simply set the temperature, and the burner will automatically turn down as room temperature nears the set temperature.

## FireLight Accents your Hearth, With or Without Flames

Included with every FullView Gas Fireplace Insert

Use our FireLight accent lighting system when the fire's on to add extra drama and detailing to the brick lining and logs. Or enjoy the ambiance and gentle glow without flames or heat during warmer months.

The high-intensity, long-life bulb features an infinite dimmer control. And here's another bright idea: FireLight's integrated design hides the bulb and lens assembly out of sight in the top of the insert.

## Mendota Sealed Combustion, Direct Vent Technology

Mendota's sealed combustion, direct vent system draws air for combustion from outside the home into a sealed firebox. Exhaust is expelled through a separate vent. Room air is heated and recirculated.

The system keeps warm air *in* and cold air *out*. This assures high air quality, maximum efficiency and trouble-free operation in today's tight homes.

## Save Energy by "Zone Heating" with a Mendota Gas Fireplace Insert

Heat the room you use the most.

Turn down your central heating and heat where it counts.

It's true! Most families spend the majority of their time in only 20% of their home. You're probably no different! So why heat the area you're not using?

*Mendota FullView energy efficient gas fireplace inserts let you reap the benefits of zone heating while adding memories of special times around the hearth.*

With an energy efficient Mendota gas fireplace insert in the room you use the most, you can turn down the central heat, enjoy the beauty, warmth and fascination of Mendota's award-winning log fire, and save valuable dollars on your energy bill.
